## IMMEDIATE ACCESS TO ACCURATE SALARY DATA FOR SMALL BUSINESSES

Searching for efficient compensation tools to help save money during this recession? Looking for accurate, up-to-date salary surveys? Trying to develop compensation packages that can compete with larger organizations but stay within your budgets? PayScale offers cost-effective compensation solutions for small companies.

### Quick and Easy-to-Use Compensation Tools

Don't waste your valuable time sifting through tons of outdated government data in search of reliable salary information to develop compensation packages. PayScale's compensation tools and unique search technology enable you to instantly find compensation data that is accurate, current and reliable. With access to over 5 million current pay records, it has never been easier to find accurate information for your growing business.

### No Participation in Expensive Traditional Salary Surveys Required

Surveys from the big compensation consulting firms are time-consuming and expensive for your organization. They're built with big companies in mind, and rarely reflect what's needed for a unique business like yours.

PayScale does not require you to participate in our salary survey. We are the largest online salary survey in the world and have real-time salary data for over 7000 positions. We receive 400,000 new records per month, so there is no need to participate in another survey to use our salary data to develop competitive compensation packages.

### Accurate and Reliable Compensation Data

Our compensation data comes directly from the source - employees and employers. We have the largest online compensation database in the world, receiving over 400,000 new records per month. To ensure that you are using accurate, and reliable and unbiased compensation data we employ robust statistical techniques to identify and remove outliers and conduct annual studies with 3rd party surveys for comparative analysis.

### Better Answers at a Better Price than Traditional Salary Surveys

PayScale offers affordable, flexible pricing options, based on your company's specific needs. You can purchase single reports to receive instant salary data for the positions of your choice, or choose an annual subscription for unlimited access to our full host of compensation tools, and data resources.

Call an Account Manager toll-free at (888) 699-0702 to discuss pricing for your company.
