**What types of data are you using today?**

**How does data fuel your compensation data strategy? What compensation activities are you using data to support?**

**Have you done anything differently this year/plan to add any additional or new sources?**

**What issues do you have working with compensation data right now? What would you like to change?**

**Are you using AI to manage data? If so, how? If not, do you plan to?**

# Q&A
